

About Us

We are a group of individuals committed to Artisan Coffee at its highest level. We want to develop an awareness of the communities that our coffees come from and the struggles they face each day. By using coffee as the common thread we can begin to realize "together we are a perfect blend."

We are committed to providing the finest customer service and education for our customers.

Experience Coffee the way it should be!

MADDABOUT COFFEE WHOLESALE SERVICE

ARTISAN COFFEE

Sharing our roasts with our customers is the single greatest joy in our lives. Passionate life, means we are passionate about our coffee.

Consulting

Knowledge is the key to a successful coffee experience with your customers. At Maddabout, we share our experience to help you develop a superior coffee culture within your coffee house or restaurant.

Roasting

Our responsibility as a specialty coffee roaster is to speak for the grower and bring out the flavors of the beans for our customers. In addition to roasting the blends that we love best, we welcome the excitement of special requests and custom blending for you and your customers.

Sourcing

As a vendor to customers that have come to demand the highest quality, we must engage in responsible buying practices. We require transparency from our importers to ensure that the communities which provide our coffee are receiving fair wages, and are using sustainable methods.
